Events vs $\Delta\eta_{jj}$ for CMS data and MC predictions, with 19.7 fb$^{-1}$ at 8 TeV. The plot shows the following categories:

- **Data**
- **EW Zjj (only)**
- **EW Zjj**
- **DY Zjj**
- **Top**
- **VV**

The data is compared to MC predictions with JES up and JES down variations. The plot includes error bars for the data points.
