

Rank	Variable
1	S_T
2	Number of W-tagged AK8 jets
3	Invariant mass of all jets and leptonically decaying W bosons
4	Invariant mass of the ℓ and angularly closest b jet pair
5	Number of t-tagged AK8 jets
6	Invariant mass of the ℓ and jet with subleading p_T
7	Invariant mass of the ℓ and jet with third-highest p_T
8	Invariant mass of the ℓ and leading b jet pair
9	Sphericity
10	Minimum invariant mass of the ℓ and any b jet pair
11	Minimum angular distance between the ℓ and any AK4 jet
12	Transverse mass of the ℓ and \vec{p}_T^{miss}
13	p_T^{miss}
14	Transverse momentum of the system of the two leading b jets and \vec{p}_T^{miss}
15	Minimum angular distance between the ℓ and any b jet pair
16	Lepton energy
17	Third-highest DEEPJET discriminant value
18	Second-highest DEEPJET discriminant value
19	ΔR between the ℓ and the b jet yielding the minimum invariant mass
20	ΔR between the ℓ and the jet yielding the minimum invariant mass
