

Uncertainty source	$\Delta\mu$
Statistical uncertainty	+0.49, -0.60
Background shape functional form (discrete profiling)	+0.08, -0.36
Systematic uncertainty	0.11
Fixed-order calculations	0.09
Lepton and photon energy scale and resolution	0.04
Photon identification variables	0.04
Parton distribution functions, α_S , and m_q	0.03
Lepton and photon reconstruction, identification, and trigger efficiency	0.02
Integrated luminosity and pileup	0.01
Underlying event and parton shower	0.01
Jet energy and p_T^{miss} , b tagging, simulation sample size	<0.01
